SPRING FLORA

FIELD CLASS / SPRING 2024 / INSTRUCTOR: MELANIE DAVIS

APRIL 13, 8:00 AM – 2:00 PM

PROGRAM OVERVIEW

Explore the diversity and understated beauty of spring desert flora. This class is an entry-level course designed to familiarize students with the common spring-flowering shrubs and annual plants of the Mojave desert within the Joshua Tree and Pinyon-juniper woodland plant communities. Students will be introduced to the use of field guides, botanical keys, and other tools for plant identification. We will review the common and scientific names of species found along the way during our field excursion, and will practice recognizing the identifying characteristics found in common desert plant families. This course involves easy-to-moderate hiking over uneven terrain.

PROGRAM AGENDA

We'll start off at the Joshua Tree Visitor Center parking lot and then caravan into Joshua Tree National Park. We will make several spots throughout the Nat'l park and cover spring flora and the plants we expect to see. We will spend the day out in the field identifying plants as well as other fall flora and end the class at 2:00 PM.
